REASONS FOR ALLOWANCE

The following is an examiner’s statement of reasons for allowance:

Claim 15 is allowed because the prior art of record does not show or suggest a fuel filter having an elongated flat filter housing having first and second longitudinally extending side walls and opposing end walls extending vertically to the longitudinally axis, and an elongated flat filter element having a planar or flat shape, and a filter insert in the housing including said filter element and an encapsulating wall, in combination with the remaining limitations in the claim. The Hopkins et al. reference (US 5,620,599) lacks the flat shape and it would not have been obvious to modify to a flat shape because doing so, as stated by applicant on page 18, lines 9-15 of the Appeal Brief filed February 10, 2011, would cause more turbulence in the filter assembly due to increase turbulence at the corners and this would disrupt uniform flow distribution.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
